SUBJECT INDEX TO VOLUME 34

A

Accidents. *See* Falls, accidental
Achlorhydria
  atrophic gastritis and, 800
  calcium absorption and, 180
Activities of daily living, 851
Affective disorders, 52
Aging
  adverse drug reactions with, 361
  atrophic gastritis with, 800
  Biblical reflections on, 251, 900
  bile acid synthesis with, 182
  cancer diagnosis with, 20
  cardiovascular response to Valsalva maneuver with, 431
  cellular and molecular aspects of, 670
  cholesterol secretion with, 182
  cognition correlation to, 253
  coping mechanisms for, 555
  exocrine pancreatic function with, 790
  gastrointestinal infections with, 377
  genetics of, 282
  glucose tolerance with, 271
  hematopoietic system with, 448
  immune response with, 377, 903
  insulin secretion with, 271
  lipid and lipoprotein levels with, plasma, 569, 773
  lymphocyte count with, 649
  metabolic aberrations with, 282, 323
  mobility correlated to, 119
  neuroendocrine control of reproductive function with, 735
  neuropeptide alterations with, 52
  normal, 902
  prevention of, 768
  protein metabolism with, 282, 323
  public policy on, 487, 671
  state policies regarding, 553
  stress of, 253, 555
  symptom interpretation of, 185
  ventilation control with, 533
  vitamin B_{12} levels with, 673
Agitation
  cognitive deterioration with, 722
  conceptual review of, 711
  definition of, 711
  dementia associated with, 368
  demographic and environmental approach to, 711
  literature review of, 711
Alcohol
  for agitation associated with dementia, 368
  testosterone levels and, 325
Alimentary lipemia, 569
Alzheimer's disease, 769
  dementia of
    cognitive decline with, 207
    depression and, 855
    diagnostic clinical features of, 12
    vs Parkinson's disease, 475
  Down's syndrome and, 728
  hearing impairment and, 207
  home care for, family support for, 348
  institutionalization of patients with, 493
  neurochemical studies of, 180
  neuroleptic malignant syndrome and, 895
  neuropeptide alterations in, 52
  psychiatric morbidity with, 561
Ambulatory patients
